

RIDIE Tablet Lottery Rules

The account holders for the first 100 official registrations of eligible study designs in RIDIE will automatically be entered in a lottery to win your choice of a [Microsoft Surface RT](#) tablet computer or [Apple iPad Mini](#). Official registration includes completing at least the required fields in RIDIE and, if necessary, correcting any errors detected by the RIDIE reviewers before the registration record is assigned a number and made public. The lottery entry will occur when the registration is published on the RIDIE site.

Five sequential lottery drawings will be held, each for one tablet, as soon as the necessary number of entrants for each drawing has been reached. Entrants will participate in the drawing number according to the initial publication date of their registration.

Drawing Number	Order of publication	Odds of Winning
Drawing 1	#1 - 15	1:15
Drawing 2	#16 - 30	1:15
Drawing 3	#31 - 50	1:20
Drawing 4	#51 - 70	1:20
Drawing 5	#71 - 100	1:30

RIDIE program staff from 3ie and RAND will not be eligible for the lottery. However, other staff from 3ie and RAND are eligible. Each official registration receives a lottery entry. Users may enter multiple studies to increase their odds of winning.

The account holder (identified by username, password, and email address) for the registration will be the official contestant for each study. Winners will be notified directly through the email address provided when the account is created.
