STATIC TEXT

I am visiting to ask you to participate in a research study. The title of the study is “Evaluating the Impact of a Maternal and Child Health Intervention in Sindh.” The purpose of this study is to learn about your use of pre-natal and post-natal health care. The study is carried out by researchers at the Lahore University of Management Sciences and at an American university (the University of California-Davis). The names of the investigators are Rashid Memon, S. Warda Riaz and Michael Carter. This study is being conducted with the knowledge of the Sindh Government and your participation in the study will help the policy makers in better designing social protection programs to improve the health of mothers and children in Sindh. Your contribution would be very valuable to us. If you agree to participate in this research, you will be asked to answer questions, which will take no more than 75 minutes. You will be asked questions about your education and employment as well as of those related to you, housing characteristics, health care practices and your attitudes. If you decide to participate, we will come back two more times in the next three years and ask you to answer similar questions to those that I will ask today. The risks of this research are minimal. Some of the questions might make

you feel uncomfortable or upset. You do not have to answer any of the questions you do not want to answer. Your participation is completely voluntary. Even after agreeing to take part, you can withdraw at any time, without giving a reason and without any negative consequences. As with all research, there is a chance that confidentiality could be compromised; however, we are taking precautions to minimize this risk. Your responses to the survey and interview questions will include information that identifies you, such as your name, phone number and address. This identifiable information will be handled as confidentially as possible. To minimize the risks of breach of confidentiality, we will replace your name with a code so that it will not be possible for anyone to link you to your answers to our questions. We will prepare a separate list connecting your name and code. That list will be stored in a protected space and only the 3 investigators will have access to the list. Participation in this study has no monetary reward. Whether or not you choose to participate, or answer any question, or stop participating in the project, there will be no penalty to you or loss of benefits to which you are otherwise entitled. If you have any questions about this research, please feel free to contact the investigator at: Rashid Mermon Lahore University of Management Sciences rashid.memon@lums.edu.pk +92-309-6949-372 If you have any questions about your rights or treatment as a research participant in this study, please contact the University of California Davis, Institutional Review Board at +1.916.703.9158 or HS-IRBEducation@ucdavis.edu.

Do you agree to take part in the research?	SINGLE-SELECT 01 <input type="radio"/> Yes 02 <input type="radio"/> No	Consent
